To Whom It May Concern:

We are impressed with the clarity and easy interpretation of the Allowe training materials. The attention to detail without the clutter makes it straightforward to learn for those with learning difficulties. Strategically placed photographs and pictures give visual details to further enhance the learning experience.

Delivery unit by unit simplifies the mapping to the AQTF system without compromising the quality of material. This makes the program very attractive to us as an alternative to international text which is confusing to match with Australian competencies. With the current trend and government encouragement for individuals to receive skills recognition, accurate mapping to the AQTF system is of paramount importance. Allowe resources simplify our administration in this area.

Another point of recommendation with Allowe resources is the ability to provide material which covers all performance criteria by grouping units which cross over without replication therefore saving students and educators time and printing resources. In this we are conserving our environment and as a new educational facility operating under a TAFE system with major concerns in this specific area.

Yours Sincerely,

A handwritten signature in black ink that reads "Barry Page". The signature is written in a cursive style with a long horizontal stroke at the bottom.
