RE: ALLOWE RESOURCES

From: TK Melbourne
level 17/190 Queen street Melbourne 3000

TK Melbourne has been using Allowe resources for Certificate III in Hairdressing specific to hairdressing chemical services for face to face learning in a classroom/salon environment. For every unit that is delivered there includes:

- I. Information resource book
- II. Trainer delivery guide
- III. Student activity work book
- IV. Trainer questions and answers
- V. Trainer assessment checklist

A significant difference is evident within the color program in terms of the way training and assessment is delivered and conducted; better demonstration of the required AQTF standards, better quality of information and a better standard of learning and assessment strategies, furthermore, trainer materials allow for a clear judgment on whether competency has been achieved.

Allowe resources are very flexible in regards to accommodating the needs and abilities of different style learners; ranging from basic learners up to those who are more advanced within their learning capacity. The information is clear, non repetitive, current and very specific to the unit and leaves no area for confusion. The teachers are also happy; their paperwork is reduced but documentation/recording is much defined in regards to student academic results/progress.

I also believe that Allowe resources will satisfy all compliance requirements. TK Melbourne is enjoying all that Allowe has provided and I strongly recommend Allowe to other providers delivering Certificate III in Hairdressing.

The creator of Allowe Resources has provided and continues to provide excellent customer service which is always nice.

Kind Regards
